

The Complete Line of Chemical Based Products:

MI-GEE Brand Methylene iodide - Diiodomethane
Density 3.32, Product catalog number is MI001,
Tariff clasifiacation number 2827.60

BROMOFORM - Tribromomethane
Density 2.85, Product catalog number is BF002,
Tariff clasifiacation number 2903.69

ACETYLENE TETRABROMIDE - Tetrabromoethane
Density 2.96, Product catalog number is AT003,
Tariff clasifiacation number 2903.69

BENZYL BENZOATE
Density 1.120, Product catalog number is BB004,
Tariff clasifiacation number 120-51-4

Please call **1-800-827-2411** and a knowledgeable representative will be happy to assist you.

For complete information see our MSDS sheets and our price list for furthur details.

Note: Chemicals on this list are laboratory items only for use by skilled people or under their supervision. Acceptance and use of these items so certifies.

The Complete Line of Water Based Products:

POLY-GEE BRAND SODIUM POLYTUNGSTATE LIQUID (SP- LIQUID)
Density 2.9, Product catalog number is SP005,
Tariff clasifiacation number 2841.80

POLY-GEE BRAND SODIUM POLYTUNGSTATE POWDER (SP- POWDER)
Density 2.9, Product catalog number is SP006,
Tariff clasifiacation number 2841.80

LOW VISCOSITY POLYTUNGSTATE (LVP) -
Density 2.82, Product catalog number is LVP00,
Tariff clasifiacation number 2841.80

LITHIUM METATUNGSTATE (LMT)
Density 3.0, Product catalog number is TM009,
Tariff clasifiacation number 2841.90.3000

LST - Density 2.82, Product catalog number is LST010 is SP005,
Tariff clasifiacation number 2841.80.0040

TUNGSTEN CARBIDE (1 micron size)
Density 3.0, Product catalog number is TC008,
Tariff clasifiacation number 2849.90.3000

For complete information see our MSDS sheets and our price list for furthur details.

Note: Chemicals on this list are laboratory items only for use by skilled people or under their supervision. Acceptance and use of these items so certifies.
